

Helping Children Do What They Do Best

UNDERSTANDING INSTINCTS

E3 Academy believes that every child has his or her own unique ways of doing things.

We champion better self-understanding because it leads to better self-management. And that enables your child to operate as his or her absolute best. Founded upon the conation principles founded by Kathy Kolbe, the renowned expert in conation research, E3 Academy administers assessments for parents and children—even providing free assessments to families in need—and provides practical understanding and recommendations to leverage your child's results for optimal learning.

WHY TAKE AN ASSESSMENT?

The biggest benefit of understanding your child's instincts is simply knowing how wonderfully and intricately he or she is made. This information shifts the narrative from frustration to celebration—improving relationships, communication and well-being.

Embrace. Empower. Encourage

OUR SERVICES

Using the Kolbe methodology and conative research, we empower families with a three-step approach to behavioral knowledge and personal development. And that enables your child to operate at their full natural potential.

KOLBE ASSESSMENTS AND CONSULTATIONS

We offer Kolbe and Dynamynd assessments to help families learn and understand their particular, instinctive ways of doing things—their natural modes of operation. We also offer private, individual and/or family consultations with our Kolbe-certified™ consultants to help parents and children understand their Kolbe results.

OUR STORY

Charles Tietgen founded E3 Academy after watching his daughter, Claire, flourish when she discovered her natural talents and instinctual strengths as a result of taking a Kolbe assessment.

After falling behind in school for years and failing nearly every class, Claire took the Kolbe Student Aptitude™ Assessment. She found her strengths, and her parents worked with the school to make accommodations that worked for Claire's personal needs. She went from failing to making As/Bs! Plus, this new self-knowledge has allowed Claire to be more resilient in all situations.

Read Claire's story and testimonials from other E3 Academy clients at E3-Academy.org.

We equip parents and teachers with a blueprint for bringing out the best in every child. To learn more about our services, how to take an assessment, or how to help a child in need visit E3-Academy.org
